

Love to *Write?* Make it your *Career.*

Technical and Professional Writers are in high demand in nearly every field.

The **Technical and Professional Writing program** at San Francisco State University will prepare you for success in this fascinating, fast growing and high paying career path. Whether your interest is in the high-tech, business, research, non-profit or government sector, the **TPW major, minor and certificate programs** will bolster your writing and communication skills, develop rhetoric tools to convey technical concepts and ideas to users who need to understand them, and train you to compose usable and accessible documents for the contemporary, evolving job market.

Technical Writers are Among the Highest Paid Professionals in the Country
