**WE LOOK FORWARD
TO MEETING YOU**

*Create The Future
With Us*

Become the future.

Representing the leading edge of genetic research, development and innovation, here in the birthplace of the technological revolution.

We are **CalHelix**

Lindsey Chen, Stanford '08

I design miracles.

It is so exciting to come to work each day knowing I'll play a vital role in some new life-saving technology. I'm not just working in a lab; I'm helping engineer the future.

I am Cal Helix.

Who we are:

CalHelix was founded in 1998 by a team of researchers at Stanford University led by Keven Huang, Ph.D. In just a few short years, the small Silicon Valley Company was being recognized for its breakthrough work in the field of genetics and attracting talent from all over the world. In 2012, with 50 employees and preparing to move into a brand new, state of the art facility at Stanford, CalHelix, was rated one of the top 50 scientific organizations and five best science employers nationwide.

Who you are:

You are one of the best and the brightest. You wake up every morning prepared and excited to push the boundaries of the possible, relishing every day as a fresh challenge. You are the next generation of scientific, technological and business talent, eager to become the future.

In short, you're a rock star.

And **CalHelix** is looking for you.

We are actively hiring talented graduates and qualified candidates for the following positions.

Shannon Richmond, Ph.D Northwestern, '99

Working at CalHelix not only afforded me opportunities for leadership, it was demanded of me from day one. At our scale, every team member is a guiding influence, and every great idea is given weight. The company's commitment to diversity and to pushing the envelope scientifically is unsurpassed in the industry.

- **Research Scientists**
- **Programmers**
- **Marketing Specialists**
- **Business Managers**
- **Technical Writers**
-

CalHelix is committed to diversity in are workforce, and especially encourage women and minority candidates to apply.
